**SLOW
THE SPREAD**

**DESIGN A MASK
FOR OWEN**

DID YOU KNOW? COVID germs are spread through tiny drops in the air when we cough, sneeze, breathe, or talk. The germs love to travel through our noses and mouths. That's why it's important to wear a mask over your mouth and nose.

**SLOW
THE SPREAD**

**HANG SIX FEET
APART**

DID YOU KNOW? When you hang out and play with people you haven't seen in awhile, it's easy for COVID germs to jump from one person to another. That's why it's important to play games that let you keep a safe distance, like "I Spy," "Simon Says," dance parties, or more!

DID YOU KNOW? COVID is a tricky virus. While it might only feel like a cold to some people, others may be sick enough to go to the hospital! That's why it's so important for kids like you to help slow the spread by wearing masks, washing your hands, and staying six feet apart.

SIX FEET AWAY

DID YOU KNOW | COVID germs live in the air we all breathe and can travel up to six feet away! That's why it's important to play six feet away from our friends. It helps to imagine the space in terms of animals. Count the number of animals below to see how many pets you'd have to line up to reach six feet.

1 2 3 4 5 6

BIG DOGS
